### Routing

**DYNAMIC ROUTING**
Dynamic routing requires an ASN. Choose between private or public ASN.

● **Private ASN**
Get assigned a private ASN and a block of public IP addresses.

Suitable if you don't have a public ASN.

○ **Public ASN**
Use your public ASN to advertise your public IP addresses.

Suitable if you want to bring in your own public IP addresses.

## Dedicated Internet On-Demand Turn up and down as you need it

- Provision instantly, manage on line
- Connections available from 1 day duration
- Flex bandwidth as needed on-demand
- Free cross-connect at selected data centres**

*This limited offer is available from June 2021 for new customers that join the Console Connect platform and activate a port in one of our 15 Singapore data centres before end August 2021. Minimum spend per IO-D service US $100 mth.*
